State Think Tank Transparency Efforts

Many state think tanks have begun to create their own transparency projects. While not all of these projects focus exclusively on "spending transparency" in its strictest terms - some of them focusing on transparency in voting, for example - all of them play an important roll in the effort to increase government accountability through transparency. Visit www.fiscalaccountability.org to learn more.

For more information contact Mattie Corrao, Executive Director of the Center for Fiscal Accountability at mcorrao@atr.org
